Gestation age(Ballard): Blood group:

Clinical examination and summary of admission

Clinical examination on admission:

Nasal cannula O2
 High flow ventilation
 nCPAP
 Ventilation
 Ventilation days:

Phototherapy
 Peripheal line:
 Central line:

Feeding
 Exclusive breast feeding
 Formula
 FM85
 TPN
 Nasogastric tube

Medication
 Antibiotics

Caffeine
 Vidaylin
 Probiotics
 Vit D
 Surfactant

Other medication used

Special investigations
 CXR
 AXR
 Renal sonar
 Cranial sonar
 Echo

Bloods

Final diagnosis
